

THE LANGHAM

SHANGHAI, XINTIANDI

Environmental Policy

The Langham, Xintiandi, Shanghai is a five-star luxury hotel offering 357 elegant guestrooms and suites. The hotel has a total function space of around 1,191 m² and contains three restaurants, a business centre, Chuan Spa, a health club, 24 hour room service and underground parking facilities.

In line with Langham's tradition since 1865, The Langham, Xintiandi, Shanghai is committed to continually improving its environmental and social sustainability performance. With the vision of forever protecting and nurturing our people and environment in every way possible, our hotel identifies and refines existing policies clearly following the standards, legislation and benchmarking of third party authorities. In order to achieve continual improvement, we follow the benchmarks set by EarthCheck, a leading authority on best environmental practice as well as Green Hotel Shanghai.

The hotel benchmarks the resource consumption to effectively identify current operational performance and take all efforts to reduce the environmental impact caused by the normal operation. According to the benchmarks, we promise to reduce energy, water and resource consumption, reduce waste, increase recycling and raise the use of environmentally friendly products and services.

In addition to working with EarthCheck, we have also implemented the Langham Hospitality Group's 'Guests of the Earth' program, which focuses on engaging our guests to join our green journey in building a more sustainable hotel. With access to a large amount of information on our company's Intranet site, we have the ability to benchmark and draw inspiration from other hotels and companies throughout the world.

Green Initiatives in the hotel:

- Energy efficient lighting
- Recycle paper/metal/plastic/glass
- Recycle wet amenities (body wash/ shampoo/ conditioner)
- Products and services of local origin are preferred
- Organic food and beverage options are used when requested

Environmental Commitments:

- Never stop exploring ways to minimize the use of energy, water and raw materials.
- Comply with local and national government environmental legislations, plans and policies.
- Encourage our colleagues to join and support our group wide internal Green Team.
- Provide our colleagues training and resources to meet our environmental objectives.
- Engage our customers, suppliers and partners in our efforts to protect the environment.
- Focus on environmental considerations in operational practices to prevent and control pollution properly.
